

It is Okay to go to the Hospital

Sometimes people feel sick.

We can go to the doctor's office or hospital when we feel sick.

Doctors and nurses work in hospitals. They try to help us feel better.

Hospitals have medicine and tools that help us feel better too.

medicine

x-ray

We can take a car or an ambulance to a hospital.

Some people stay in the hospital for a little while. They might even leave in a few hours.

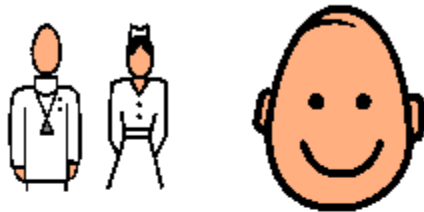

4 hours

Other people might stay in the hospital for a couple of days, weeks or months.

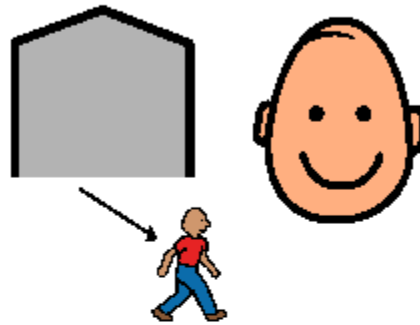

3 weeks

The doctors and nurses that work in the hospital help us feel better.

We leave the hospital when we feel better. Everything is okay when we leave the hospital.

It is okay to go to the hospital to feel better.
